

# **Nevada photovoltaic certification**

## Overview

---

What is a photovoltaic (PV) certification study guide?

This is a study guide for individuals pursuing a Board Certification in the field of photovoltaics from the North American Board of Certified Energy Practitioners (NABCEP).

How do I get a photovoltaic installer license in Nevada?

To get a photovoltaic installer license in Nevada, you must fill out an application and submit it to Nevada OSHA. You must pass a test administered by Nevada OSHA with 70% or more of the questions correct. The application can be found here: [Application for Photovoltaic Installer License](#). To make an appointment for the test, please contact Nevada OSHA.

What is the NABCEP PV Certification Study Guide?

The NABCEP Board Certified PV Certification Study Guide is a useful study guide for individuals studying to take a NABCEP Board Certification exam in PV, a supplemental textbook for training courses, and a general reference book for practitioners in the field. (Welcome to the 2019 edition of the Study Guide).

What is a PV design specialist (PVDs) board certification?

Our PV Design Specialist (PVDS) Board Certification recognizes the advanced experience and skill of PV system designers. This Board Certification demonstrates your proven ability to configure the mechanical and electrical design components of PV systems. To find out if you meet the eligibility requirements for this Board Certification, [click](#).

What are the NFPA requirements for PV systems?

The requirements for Photovoltaic (PV) systems and most other electrical installations are governed by the National Electrical Code (NEC), NFPA 70. Notable exceptions include vehicles, boats, aircraft, trains, and certain utility-

controlled properties such as power plants, substations, and distribution systems.

What is a PV system Inspector (pvs) board certification?

The PV System Inspector (PVS) Board Certification recognizes the advanced experience and skill of inspecting residential and commercial photovoltaic systems. This Board Certification is for those who are highly knowledgeable of PV systems, applicable codes and ordinances, and assessing the safety and operation of PV systems.
