Overview

Who is Newen energy storage systems - India?

Newen Energy Storage Systems - India, in technological collaboration with Dynapower-USA, provides energy storage systems for both front-of-the-meter and behind-the-meter storage applications and standalone microgrids.

What is Newen energy storage?

Newen, in technological collaboration with Dynapower, manufactures world class Energy Storage bi-directional inverters, microgrid controllers and DC-DC converters. Our energy storage solutions are engineered to excel and customized to meet the specific requirement of the customer for 'front of the meter' or 'behind the meter' solutions.

Who is Newen systems?

Newen Systems, pioneer in Battery Energy Storage Systems (BESS) in India with technology collaboration with Dynapower, USA, offers a comprehensive stack solution for BESS, Green H2, and e-Mobility Infrastructure. Head Office & Manufacturing Facility Survey no. 276 & 290/C, Shakti Logistic Park, Makarpura GIDC. Vadodara 390013, Gujarat - India.

What power solutions does Newen offer?

Newen's power solutions span across Thyristor and SMPS based converters to IGBT based chopper and inverter-based systems including current source converter systems designed specifically for electrolysis applications.

Are Newen energy storage systems safe?

Newen Energy storage systems are equipped with energy storage inverters and converters which are UL 1741 SA and ISO 9001 certified, and meet all safety requirements. To keep these storage systems safe from damage caused by excessive heat and energy surges, there are safety features available in the system.

Who is Dynapower & Newen systems?

At the forefront of energy innovation, Dynapower, USA, our technological partner, with globally proven BESS Technology and over 1500MW installations, develops next-generation energy storage and power conversion systems with NEWEN Systems, India.
