

Nis energy

Overview

Naftna Industrija Srbije (: Нафтна Индустија Србије, 'Petroleum Industry of Serbia'; abbr. NIS / НИС) is a Serbian multinational with headquarters in NIS building, , Serbia. NIS is one of the most profitable companies in Serbia and one of the largest domestic exporters. It employs around 11,000 people in Serbia and the region. As of Ma.

What does NIS stand for?

Naftna Industrija Srbije (Serbian Cyrillic: Нафтна Индустија Србије, lit. 'Petroleum Industry of Serbia'; abbr. NIS / НИС) is a Serbian multinational oil and gas company with headquarters in NIS building, Novi Sad, Serbia. NIS is one of the most profitable companies in Serbia and one of the largest domestic exporters.

What does NIS group do?

NIS Group is one of the largest vertically integrated energy companies in Southeast Europe. Main activities consist of research, production and oil and natural gas refining, sales and distribution of a wide assortment of petroleum products, as well as the realization of projects in the fields of petrochemistry and energetics.

Why is NIS a good company?

The efforts of NIS in this area are particularly focused on young people who are the bearers of future development. Today, NIS is one of the most successful companies and the largest budget provider in Serbia.

Where is NIS oil & gas located?

The majority of oil and gas fields owned by NIS are located in Serbia. The company is also involved in exploration works in Romania and Bosnia and Herzegovina. The oldest concession abroad is in Angola, where NIS has been operating since 1985.

Is NIS a profitable company in Serbia?

NIS is one of the most profitable companies in Serbia and one of the largest domestic exporters. It employs around 11,000 people in Serbia and the region. As of May 2022, Gazprom Neft is the largest shareholder with 50% of NIS shares, followed by 29.87% owned by the Government of Serbia, 5% owned by Gazprom and rest by minority shareholders.

Where is NIS based?

In addition to Serbia, NIS is also developing its business in the Balkans region. Regional expansion is taking place in two main directions – in the field of oil and gas exploration and production (in Romania and Bosnia and Herzegovina) and through the development of a retail network (in Bulgaria, Bosnia and Herzegovina and Romania).

NIS

Od 2013. godine na naftnim i gasnim poljima, na osam lokacija u Srbiji, NIS je pustio u rad mini-elektrane cija je maksimalna snaga 14,5 MWe. Ekoloska prednost koriscenja ovih mini-elektrana je u proizvodnji elektricne i toplotne energije iz gasa, koji do sada nije bio iskoriscen zbog velike kolicine ugljen-dioksida i azota ili nije mogao biti valorizovan zbog nepostojanja gasne
