

Northvolt ab

Overview

Northvolt AB is a Swedish battery developer and manufacturer, specialising in for . Founded in 2015 by two former Tesla executives, it commissioned its first manufacturing plant in , Sweden in 2021 and has announced plans for five others in Europe and North America.

What is Northvolt ett?

Northvolt Ett (swedish: "one") is a gigafactory located in Skellefteå, northern Sweden, with a goal output of 60GWh. When finished, it would be the largest factory in Swedish history, possibly creating challenges for newcomers and the existing community.

Where is Northvolt located?

The headquarters of Northvolt are in Stockholm. Its center for research and development is situated in Västerås, Sweden. Northvolt Ett (swedish: "one") is a gigafactory located in Skellefteå, northern Sweden, with a goal output of 60GWh.

Who is Northvolt AB?

Northvolt AB is a Swedish battery developer and manufacturer, specialising in lithium-ion technology for electric vehicles. Founded in 2015 by two former Tesla executives, it commissioned its first manufacturing plant in Skellefteå, Sweden in 2021 and has announced plans for five others in Europe and North America.

Where is Northvolt battery made?

A Lithium-ion prismatic cell battery at the Northvolt plant in Skelleftea, Sweden. Battery maker Northvolt AB has raised \$1.2 billion from international investors as the company aims to boost production at its factory in Northern Sweden.

Is Northvolt a homegrown Battery Company?

Formed seven years ago, Northvolt is the first homegrown European battery

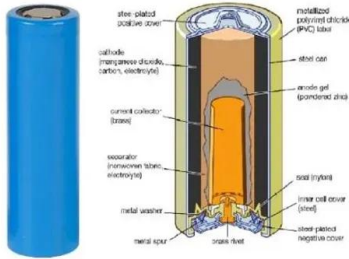

company. In an interview with NPR, its CEO Peter Carlsson says the company was created to help make the continent self-sufficient on the batteries that will power the future of energy — and less dependent on China. "Europe was not really having any supply chains," he says.

What is Northvolt's plan for the future of energy?

In 2017, we announced a bold and simple plan: to enable the future of energy by developing the world's greenest battery cell and establish a European supply of batteries. This is Northvolt's second integrated Sustainability & Annual report.
