

# **Outdoor electric bike with 48v 15ah lithium battery**

## Overview

---

Where can I find a 48V 15ah ebike battery?

Search Newegg.com for 48v 15ah ebike battery. Get fast shipping and top-rated customer service.

How many miles does a 48V 13Ah battery last?

The 48V 13Ah battery offers well over 500 charge cycles, and will get you somewhere between 22- 48 miles per charge depending on how much you want to pedal, the weight of you and whatever you're carrying, inclines, terrain, tire inflation, headwinds, and a few other factors. And - it's foldable.

What kind of battery does a hipeak Elis use?

Unlike most folding electric bikes from other brands, which are using 48V 12-14Ah ebike batteries, HiPEAK ELIAS folding ebike is equipped with 48V 15Ah Lithium-ion battery. The higher power of the battery brings this ebike longer range. HiPEAK ELIAS is able to cover a range of up to 50-60 miles per charge.

Are Elias electric bikes easy to fold?

The ELIAS is convenient and comfortable to ride. Its battery could cover a common commute range. Its fat tire could handle all kinds of road conditions. And also, it is foldable as long as you need it.

Is Elias a good e-bike?

15 Years' E-bike Factory Experience. "ELIAS" is equipped with a 750W brushless motor while those of most folding ebikes from other brands are 500W or less. This powerful motor could help you climb more easily and ride faster. 750-Watt electric bikes can give you great speed combined with smooth control.

What is a sf20h upgarded folding electric bike?

The SF20H Upgraded folding electric bikes offer the convenience of easy storage and transportation. They are super fun companions to take with you for your adventures. Fit them easily in your RV or even in the trunk of your car. Equipped with a 750W motor, the SF20H Upgraded effortlessly propels you forward with speed and precision.
