

Photovoltaic ESS EPC turnkey quotation per 500MW 2025

Overview

Why should you choose qcells EPC?

Why Qcells EPC?

We have the budget and backing to get your projects built on time and on budget utilizing the financial bankability of the Hanwha Groups assets of \$197 billion. Bringing cutting edge technology, engineered in Germany, by a staff of 485 who research, develop, and test our solar modules resulting in world record efficiency.

How do market analysts evaluate the cost of PV systems?

Market analysts routinely monitor and report the average cost of PV systems and components, but more detail is needed to understand the impact of recent and future technology developments on cost. Consequently, benchmark systems in the utility-scale, commercial, and residential PV market sectors are evaluated each year.

What is the ESS inverter?

The ESS inverter is ac coupled with the PV inverter. The ESS system is assembled in the United States using domestic components except for the battery cells, which are imported from China and subject to 25% import tariff. The ESS producer receives a 45X tax credit of \$10/kWh for battery modules.

How does Seto calculate PV system cost?

Unlike most PV cost studies that report values solely in dollars per watt, SETO's PV system cost benchmark reports values using intrinsic units for each component. For example, the cost of a mounting structure is given in dollars per square meter of modules supported by that structure.

How many inverters does a PV system use?

The DC cables are connected to 19 utility-scale central inverters, each rated at

4 MW ac, giving the PV system a rated AC power output of 76 MW ac, which corresponds to an inverter loading ratio of 1.32. The inverters are made in Europe in a plant that produces 250 of them each year. These inverters are not subject to import tariffs.

What is an EPC project?

EPC projects that are also known as 'turnkey' and as the contractor assumes responsibility for engineering services, procurement of materials, hiring of teams and materials, and execution of the work, among other tasks, to deliver the project ready to be operated by the client by a given deadline and with a number of guarantees.
