

Photovoltaic Inverter VEICHI Electric Market

Overview

Which solar inverter is suitable for household photovoltaic energy storage system?

VEICHI SISV series 4.2kW/6.2kW/8.2kW/10.2kW hybrid solar inverter is suitable for the household photovoltaic energy storage system. DC power generated by solar panels is stored in the battery through the inverter. VEICHI SISV series 3.5kW/5.5kW off grid solar inverter is suitable for the household photovoltaic energy storage system.

What are veichi products?

VEICHI products include Frequency Inverter, Servo System, Solar Pump Inverter, PLC, HMI, Automation Equipment and more, mainly serving smart factories, intelligent equipments, robots, new energy, and other applications.

What is a hybrid solar inverter?

VEICHI 25-50kW hybrid inverter, with a maximum efficiency of 98.8% and 100A charge/discharge current, within 10ms UPS-level switching. VEICHI SIS series 3kW/5kW hybrid solar inverter is suitable for the household photovoltaic energy storage system. DC power generated by solar panels is stored in the battery through the inverter.

What is veichi & how is it transforming the industry?

In the meanwhile, along the development trend of the times, VEICHI is extending its place to the emerging fields such as robotics, new energy, and medical care, and has developed products such as coreless motors, frameless motors, photovoltaic AC drives, and surgical power systems, which have deeply empowered the impressively promising industries.

Are veichi products selling well in China and oversea countries?

Contact Information: VEICHI products are selling well in both China and oversea countries. Now our overseas business is booming rapidly! VEICHI has

developed a wide range of electrical products, covering variable frequency drives, servo systems, solar pump inverter, PLC, HMI, automation equipment and so on.

Who is veichi electric?

VEICHI Electric (stock code: 688698) has always been dedicated to the field of electrical drive and industrial control since its establishment, and now it is a high-tech enterprise engaged in R&D, production, and sales of industrial automation products in one.
