

# Photovoltaic industry board

## Overview

---

What's happening in the photovoltaics industry?

This document provides the most comprehensive global overview of the development of the Photovoltaics sector, covering policies, drivers, technologies, statistics and industry analysis. The market grew again to 174 GW in 2021 and even more was installed in 2022 despite the second year pandemic and despite the end-of-year disruptions in Asia.

How is the solar PV industry changing?

The solar PV industry is changing rapidly, with innovations occurring along the entire value chain. In recent years, a major driver for innovation has been the push for higher efficiency (Green, 2019).

Is the future of solar PV employment bright?

Despite setbacks, there is reason to believe that the future of solar PV employment is nonetheless bright, given the urgency for more ambitious climate and energy transition policies, as well as the expectation that countries are learning important lessons on the design and coherence of policies.

What is the IEA-PVPS Trends Report?

For the 28th consecutive year, the IEA-PVPS Trends report is now available. This document provides the most comprehensive global overview of the development of the Photovoltaics sector, covering policies, drivers, technologies, statistics and industry analysis. Market Volumes: • The market passed 1 TW in cumulative capacity.

Why is the PV industry important?

As with many industries, the PV industry has gone through a long history and progression of standards development, which play a central role in supporting technological innovation and the emergence of an industry.

Why are standards important in the solar PV industry?

**Box 9. THE IMPORTANCE OF STANDARDS IN THE SOLAR PV INDUSTRY**

Standards are essential for ensuring safety and quality in the solar PV sector, especially because the reliability, performance and durability of solar equipment is critical to ensuring smooth operation of solar power plants.

## Photovoltaic industry board

---

### Future of photovoltaic technologies: A comprehensive review

As a result of sustained investment and continual innovation in technology, project financing, and execution, over 100 MW of new photovoltaic (PV) installation is being ...

### Chinese PV Industry Brief: Nationwide solar

...

China's MIIT has reported substantial growth in the country's photovoltaic (PV) industry for the first half of 2024. Production in key segments - polysilicon, wafers, cells, and modules

### Performance Across the Board Declines! Is the Photovoltaic Industry

As the photovoltaic (PV) industry's lucrative days are over, the sector has been hit with frequent news of layoffs and production halts. In March, after being exposed to a ...

### PV industry faces consolidation, says JinkoSolar

Frank Niendorf, general manager Europe at JinkoSolar, said this shakeout will affect the solar industry, particularly second-tier manufacturers, and could cause shifts among ...

### NABCEP Home

NABCEP's 2025 CE Conference in Reno, NV  
March 24-27 2025 The advanced-level content presented at the annual NABCEP CE Conference is geared toward PV industry professionals who have experience with PV installation, solar + ...

### Liu Hanyuan, Chairman of the Board of Directors of Tongwei ...

6 ???· According to the China Photovoltaic Industry Development Roadmap compiled by the China Photovoltaic Industry Association, the market share of TOPCon cells will increase ...

### Technological innovation structure and driving factors of China's

Introduction. Permanence, cleanliness, and sustainability are the three main characteristics of photovoltaic (PV) industry. Currently, the world is facing severe ...

?????????

?????????(?????:CHINA PHOTOVOLTAIC INDUSTRY ASSOCIATION,??CPIA)????????????????????????????????,? 2014?6?27????????? ...

[Solar Energy Industries Association](#)

6 ???· About SEIA. The Solar Energy Industries Association® (SEIA) is leading the transformation to a clean energy economy. SEIA works with its 1,200 member companies and ...

**Fire and Solar PV Systems - Recommendations for the Fire and ...**

6 CompletedMaFire and Solar PV Systems -Literature Review, Including Standards and Training\* derived from WP1 & 2). rch 2017 7 Fire and Solar PV Systems -Investigations and Evidence\* ...

### Chinese PV Industry Brief: Longi to mass-produce back contact ...

Longi has announced plans to produce its new hybrid passivated back contact (HPBC) 2.0 solar cells at a 12.5 GW facility in Xixian New Area, Shaanxi province.

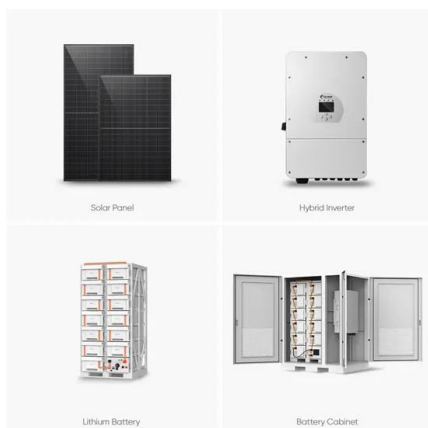

### Recent Facts about Photovoltaics in Germany

Germany is leaving the age of fossil fuel behind. In building a sustainable energy future, photovoltaics is going to have an important role. The following summary consists of the most recent facts, figures and findings and shall assist in ...

### FUTURE OF SOLAR PHOTOVOLTAIC

As of the end of 2018, the global capacity of installed and grid-connected solar PV power reached 480 GW (Figure 6), representing 20% year-on-year growth compared to 2017 (386 GW) and a ...

### Home

With the alliance's support, the EU could reach 30 Gigawatt of annual solar energy manufacturing capacity by 2025 across the full PV value chain. The alliance will foster an innovative and value-creating industry in Europe, which ...

### Chinese PV Industry Brief: China may add 280 GW of new PV this ...

China Securities has revised its forecast for China's PV installations in 2024, projecting 260 GW to 280 GW of new capacity this year. This would be a significant increase ...

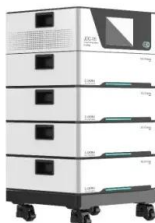

### Snapshot of photovoltaics - February 2024 , EPJ Photovoltaics

2 PV solar cell production. Estimates for global cell production 1 in 2023 are in the range of 580 to 630 GWh. For 2024 a further increase is expected. The decreasing ...

### Trends in PV Applications 2023

Trends in PV Applications 2023. For the 28th consecutive year, the IEA-PVPS Trends report is now available. This document provides the most comprehensive global overview of the development of the Photovoltaics sector, covering ...

### FUTURE OF SOLAR PHOTOVOLTAIC

Remesh Kumar, Arun Misra, Seth Shishir, Upendra Tripathy (International Solar Alliance), Dave Renne (International Solar Energy Society), Christian Thiel and Arnulf Jaeger-Waldau (Joint ...

### 2024 PV Trends: Global growth and challenges

The global PV industry has massively grown in 2023, with unprecedented installation volumes reported throughout the year and even more projected for 2024, according to ...

### **The China Photovoltaic Industry Association recently released an ...**

The China Photovoltaic Industry Association recently released an analysis report, pointing out the current cost of photovoltaic modules and arguing that 0.68 yuan per ...
