

# Photovoltaic panel 660W single crystal double glass

## Overview

---

What is a stro 6 twins chsm66m (DG) / F-BH series solar panel?

The ASTRO 6 Twins CHSM66M (DG)/F-BH Series solar panel is ideal for both residential and commercial installations, and it can be used in a wide range of applications, including rooftops, ground-mounted systems, and solar farms. The panel is easy to install, and it comes with a 25-year warranty, ensuring long-lasting and reliable performance.

What is the efficiency of Evo 6 series photovoltaic panels?

Max. Efficiency: Based on 210mm silicon wafer and 132 half-cut monocrystalline PERC cell, the Evo 6 Series photovoltaic panels comes with several innovative design features allowing higher output power up to 670W.

How much power does a solar panel produce?

It features a power output of 645~660W, making it one of the most efficient solar panels available in the market. The panel is designed to provide reliable and consistent performance even in harsh weather conditions, thanks to its robust build quality and advanced materials.
