How do I choose a solar panel brand in the UK?

Product availability in the UK can also determine which brands installers are able to fit. When you talk to different installers (we'd recommend getting three quotes), use our research on solar panel brands to help you choose between them. Read our full buying advice for solar panels.

What are the best solar panels in the UK in 2024?

We compared top solar brands to pick the best solar panels in the UK in 2024. We chose SunPower as the best for durability, Project Solar for customer satisfaction, and AIKO as the most efficient. Our experts have researched a broad range of solar panels on the market to help you decide which option best suits your needs.

Are solar panels a good choice for your home?

Solar panels are a popular renewable energy system for UK homeowners, self builders and renovators. In fact, over 220,500 solar panel installations were

completed in 2023, according to data from the MCS (Microgeneration Certification Scheme). But how can you be confident you're buying the best solar panels for your home and lifestyle requirements?

.

Is project Solar a good brand?

Project Solar also claims that this solar panel delivers optimal performance in low-light conditions - a concern for many UK homeowners due to the country's famous lack of sunny weather. However, a lower than average overall efficiency rating of 22.18 per cent means Project Solar is one of the weakest brands in this area.
