

# Photovoltaic panel installation opening ceremony

## Overview

---

How to install solar panels?

Make space for the solar panel accessories (solar inverter, cables and solar batteries, if desired), for instance in a plant room 4. Plan a day for installation 5. Erect the scaffolding (this can be done by your supplier or by a company you organise) 6. The solar panel mounts will be installed 7. The professionals will install the solar panels 8.

How is the government accelerating the deployment of rooftop solar energy solutions?

The Government has taken the lead in accelerating the deployment of rooftop solar energy solutions. We are constantly exploring new and innovative ways to install solar panels in the limited spaces available to us. This includes tapping on vacant land as well as open water bodies.

How can we install solar panels in a limited space?

We are constantly exploring new and innovative ways to install solar panels in the limited spaces available to us. This includes tapping on vacant land as well as open water bodies. One successful example is the Sembcorp Tengeh Floating Solar Farm at Tengeh Reservoir. Solarising our industrial estates 4.

Are floating solar PV systems better than conventional solar systems?

The Solar Energy Research Institute of Singapore (or SERIS) played a critical role as project manager for the testbed and found that floating solar PV systems performed 5 to 15 per cent better than conventional rooftop solar systems.

Will a floating solar PV system power Singapore's water treatment plants?

5 In August this year, PUB, Singapore's National Water Agency and Sembcorp started constructing the floating solar photovoltaic (or PV) system on Tengeh Reservoir, which will be one of the world's largest. When completed, the

energy generated will power all of PUB's local water treatment plants and offset 7 per cent of their annual energy needs.

How long does it take to install solar panels?

"When you have decided that you would like solar panels fitted, a desktop survey and quote is done," explains David. "This should not take more than about an hour or so to prepare. You may want to get two or three quotes from different installers to compare quotes and service.
