

Photovoltaic panel pallet ruler

Overview

Are solar panel pallets reusable?

Adjustable, collapsible, reusable pallets engineered for solar panels. PVpallet's solar panel pallets, Series X and Series X.L, fit a range of panel sizes. These pallets are purpose-built with added features like protective sidewalls, a steel-reinforced base, and an efficient load management system.

What is a solar panel pallet?

It's truly a game-changing solution for handling solar panels that improves efficiency and safety while reducing costs associated with breakage and packaging waste. PVpallet's solar panel pallets are purpose-built to reduce panel breakage, streamline operations, improve safety, and optimize storage.

What sizes does pvpallet offer?

Watch the Full Product Demo. PVpallet's solar panel pallet is available in two sizes. Series X is designed for solar modules between 63.5" and 83.5" in length. Series XL is designed for larger 90" modules. Custom sizing is available upon request.

What is a solar pallet & how does it work?

These pallets are purpose-built with added features like protective sidewalls, a steel-reinforced base, and an efficient load management system. It's truly a game-changing solution for handling solar panels that improves efficiency and safety while reducing costs associated with breakage and packaging waste.

Does pvpallet test reusable solar panels?

PVpallet does not warrant that all loads will perform the same as lab testing. PVpallet's reusable solar panel pallets can be adjusted to fit a range of panel sizes and are purpose-built with added features like protective sidewalls, a steel-reinforced base, and an efficient load management system.
