## Overview

---

Where is the serial number on a photovoltaic inverter?

The serial number can be found at the bottom of the asset label which is located on the right side of the inverter, which is the top of the two modules. See the following example. Double check the label is titled "Photovoltaic Inverter". It is important the second string of numbers, following the first hyphen in the serial, begins with "07".

What is considered a stand-alone solar PV installation?

Installations with a TIC of 250kW or less<sup>3.87</sup> A solar PV installation with a TIC of 250kW or less will be classified as stand-alone if it is not wired to provide electricity to a building. If it is wired to provide electricity to a building.

How do tariff rates for solar PV installations work?

The amount of generation which is deemed to be exported is set by the Secretary of State for the Department of Energy Security and Net Zero each year in their annual determinations. Tariff rates for Solar PV installations are uniquely split into Higher, Middle and Lower bands.

What is the DNC of a solar installation?

at 10% of the installation's DNC. 3.92 The DNC of a solar installation is normally assessed as either: the maximum AC output (kW) of the inverters, or the maximum DC (kW) output of the panels, whichever is the lesser.<sup>3.93</sup> Please note, if you are applying for preliminary accreditation, the application must declare whether the ins.

Is GST applicable on solar panels?

No, 13.8% GST is not applicable on solar. Solar panels are exempt from GST in India. What is HSN code 85414300?

HSN code 85414300 is for solar water heaters, including collectors and solar

receivers. What is the GST rate for Solar cookers?

The GST rate for solar cookers is 5%.

Can a photovoltaic cell be used for an export declaration?

Can be used for an export declaration. Photovoltaic cells assembled in modules or made up into panels; Examples: - Photovoltaic cells assembled in modules (500 watts, 1200mm x 600mm x 40mm) .
