

Photovoltaic support fee

Overview

In the current year, there are a range of government grants and other incentives available for domestic solar panel installation. These include.

If you are not eligible for the solar panel government grants and funding currently on offer, you can seek private financial assistance in the form of a loan. Surprisingly, there are.

The Energy Company Obligation (ECO) is at its 4th iteration, hence the name ECO4. This funding is only available to households who meet the eligibility criteria, which includes the.

At present,, free solar panels are not available in the UK Back in 2010, many solar companies would practically install solar panels for free, this was largely due to the incentives of the.
