

# Photovoltaic tax credit name

## Overview

---

How do solar PV tax credits work?

For example, if your solar PV system was installed in 2022, installation costs totaled \$18,000, and your state government gave you a one-time rebate of \$1,000 for installing the system, your federal tax credit would be calculated as follows: State tax credits for installing solar PV generally do not reduce federal tax credits—and vice versa.

What is the federal tax credit for solar photovoltaics?

Check out the Homeowner's Guide to the Federal Tax Credit for Solar Photovoltaics for more information on the ITC including eligibility requirements and how to claim it on your taxes. President Biden signed the Inflation Reduction Act into law, expanding the Federal Tax Credit for Solar Photovoltaics, also known as the Investment Tax Credit (ITC).

Who is eligible for a solar PV tax credit?

A tenant-stockholder at a cooperative housing corporation and members of condominiums are still eligible for the tax credit if they contribute to the costs of an eligible solar PV system. In this case, the amount you spend contributing to the cost of the solar PV system would be the amount you would use to calculate your tax credit.

Do you get a tax credit if you install a PV system?

Those who install a PV system between 2022 and 2032 will receive a 30% tax credit. That will decrease to 26% for systems installed in 2033 and to 22% for systems installed in 2034. If you've already installed a system in 2022, your tax credit has increased from 22% to 30% if you haven't already claimed it.

Can I claim a solar PV tax credit in 2023?

Yes. Generally, you can claim a tax credit on the expenses related to the new solar PV system that already came installed on the house for the year in which

you moved into the house (assuming the builder did not claim the tax credit)—in other words, you may claim the credit in 2023.

Can I claim the federal solar tax credit?

Yes. If you financed the system through the seller of the system and you are contractually obligated to pay the full cost of the system, you can claim the federal solar tax credit based on the full cost of the system.
