

# **Price list for photovoltaic panel color steel tile installation**

## Overview

---

Solar tiles, also known as solar shingles or solar slates, are for people who'd like a solar-powered home without anybody noticing. They're a relatively new technology that isn't widely available in the UK as of yet; however, there are a few brands that specialise in making them. These include: .

Due to their new and integrated technology, the cost of solar tiles is up to twice as much as solar panels. They also take longer to put in place.

There are currently no grants to help with the costs of solar roof tiles. Check out our solar energy grantguide for more information.

In terms of government-led solar power initiatives, the SEG is the FiT's successor; but they're not the same. Previously, the government paid for the.

The Smart Export Guarantee launched on 1st January 2020, replacing the Feed-in Tariff. This means that some energy providers are offering around 5.5p/kWh of exported electricity. With that in mind, a 4kWp solar panel system.
