

# Prices for solar panels

## Overview

---

How much do solar panels cost on average?

Most people will need to spend between \$16,500 and \$21,000 for solar panels, with the national average solar installation costing about \$19,000. How much does a solar panel cost?

Less efficient polycrystalline panels are typically cheaper at \$0.75 per watt, putting the price of a 400-watt panel at \$300. The cost of a solar panel also depends on how you buy it. If you purchase through a full-service installer, you will likely get a lower price for each panel than buying them individually from a retail store.

How much does a 400 watt solar panel cost?

Today's premium monocrystalline solar panels typically cost between \$1 and \$1.50 per Watt, putting the price of a single 400-watt solar panel between \$400 and \$600, depending on how you buy it. Less efficient polycrystalline panels are typically cheaper at \$0.75 per watt, putting the price of a 400-watt panel at \$300.

How much does solar cost per watt?

The price per watt for larger and relatively straightforward projects are often within the \$3-\$4 range. Claiming incentives like tax credits and rebates can bring the PPW even lower. However, the following factors may push your solar price per watt into the \$4 to \$5 range.

How much does a home solar installation cost?

The faster the cost of electricity increases, the shorter your payback period and the greater your savings will be. Lower solar prices also drive shorter payback periods. Ten years ago, a home solar installation cost \$3.60/W according to the National Renewable Energy Laboratory. That's 31% more than what we see on EnergySage right now.

Where does solar cost the most?

We generally see this trend on EnergySage (though there are some outliers), with lower \$/W pricing in warmer states and higher \$/W pricing in colder states. Arizona has the lowest average cost of solar, while Maine and New Hampshire have some of the highest prices.

How much do solar panels cost in 2022?

We analyzed thousands of systems sold on solar.com in 2022 to find the average cost of solar panels for homes based on their square footage of living space and number of bedrooms. On average, solar panels cost \$8.77 per square foot of living space, after factoring in the 30% tax credit.
