## Overview

---

Who is prima power?

Prima Power provides businesses of all sizes with targeted dynamic technologies that enhance profitability in sheet metal working. We create integrated automated solutions designed to meet our clients' challenges and open to their future growth. We offer high-performance machines that deliver flexible and precise execution.

What technologies does Prima power offer?

Prima Power range of technologies is one of the widest in the industry: 2D and 3D laser machines for cutting, welding and drilling, punching machines, combined punch-laser and punch-shear systems, press brakes, panel benders, robotic bending cells and flexible manufacturing systems.

What makes Prima power unique?

With a widespread industrial and sales and service footprint, the company strategically positions itself where it's needed most. A connection rooted in decades of knowledge and expertise enables Prima Power to truly understand and support the unique needs of each market and industry. PRIMA INDUSTRIE S.p.A. - HQ and Tech Center FINN-POWER Oy.
