

Q peak solar inverter

Overview

What is q peak duo ml-g10+?

With a higher efficiency rate than previous series, the Q.PEAK DUO BLK ML-G10+ is the first 400W module for the residential market and takes high performance to a new level. The G10+ module utilizes Q CELLS' zero gap Q.ANTUM DUO Z technology to boost module efficiency up to 21.1%.

What is a qcell solar module?

With solar modules from Hanwha Q CELLS America Inc. (hereafter referred to as "Qcells") you can directly transform the sun's limitless energy into environmentally-friendly solar electricity.

What makes Qantum duo Z a good microinverter?

Optimal yields, whatever the weather with excellent low-light and temperature behaviour. Q.ANTUM DUO Z Technology and the integrated high-powered Enphase IQ 7+ Microinverter achieving maximum system efficiency. Seamless management with the intelligent Enphase Enlighten™ monitoring system.

What is Qantum duo technology & Enphase IQ 7+ microinverter?

Q.ANTUM DUO Technology and the integrated high-powered Enphase IQ 7+ Microinverter achieving maximum system efficiency. Seamless management with the intelligent Enphase Enlighten™ monitoring system. Built-in rapid shutdown with no additional components required.

Why is the microinverter pre-assembled?

The panel is pre-assembled with the microinverter in the factory. This makes the module faster to install and thus reduces labor costs for installers. Note: While purchasing Services in the Store, other products/services can't be added to the cart.

Do qcells solar modules need to be cleaned?

Qcells solar modules are known for a long operating life and minimal maintenance effort and expense. Dirt and grime are usually washed away by rain. If the module is fully or partially shaded by dirt or debris (e.g., plants, bird droppings), it needs to be cleaned to prevent a loss of performance.
