

Radio shack plug n power wireless remote control system

Overview

Does RadioShack work with other plug n power modules?

If it works in some AC outlets but not in others, contact your local RadioShack store for help. You cannot control other Plug 'N Power modules from your remote control. Make sure the red light on the remote control lights when you press a button. You cannot control other Plug 'N Power modules from your remote control.

How do I care for my RadioShack plug n power wireless remote?

Your RadioShack Plug 'N Power Wireless Remote Control System is an example of superior design and craftsmanship. The following suggestions will help you care for your system so it will serve you for years. Keep the system dry. If it gets wet, wipe it dry immediately. Liquids might contain minerals that can corrode the electronic circuits.

What is a plug n power wireless remote control system?

With your RadioShack Plug 'N Power Wireless Remote Control System, you can discover the convenience, comfort, and security of a Plug 'N Power system. You can turn on or off all lights or appliances plugged into your Plug 'N Power Wireless Remote Control System with the touch of one button from anywhere inside or outside your home.

How does a plug n power controller work?

Plug 'N Power controllers such as your Wireless Remote Control System send high frequency signals through your household wiring. The remote control sends radio frequency signals to the control system's receiver, which retransmits the signals over your house wiring to other Plug 'N Power modules.

Is RadioShack a trademark?

RadioShack and Plug 'N Power are registered trademarks used by Tandy Corporation. Turning lights and appliance on and off by remote control is a

great convenience, but there can be some unexpected consequences.

What is a wireless remote control system?

Your Wireless Remote Control System includes a remote control and a control center module that lets you remotely control one light or appliance. By adding modules (not supplied), you can control up to 16 groups of lights or appliances anywhere in your home.
