

Rajasthan solar energy policy

Overview

The state targets the installation of 1 to 1.2 GW of solar capacity by 2022, seeks to enhance energy security, create jobs in the solar manufacturing and become a main exporter of renewable power to third party and neighboring states. What is solar policy in Rajasthan?

The solar policy also facilitates the installation of solar power producers targeting solar power trade with third party or other states. In fact, Rajasthan aims to become a major issuer of solar Renewable Energy Certificates within the Indian Renewable Portfolio Obligation. Want to know more about this policy ?

.

How many solar power projects will be installed in Rajasthan?

Solar Energy Policy, 2019 has been issued with the target to install 30,000 MW Solar Power Projects up to 2024-25 in the State of Rajasthan for sale of power to distribution companies (DISCOMs) and for captive consumption, within and outside the state.

How a solar park will be financed in Rajasthan?

Such Fund will be financed by the collection of a development charge of INR. 10 Lacs per MW installed transferred to the Rajasthan Renewable Energy Corporation. The policy also provides for the regulation framework to develop solar parks larger than 1, 000 MW capacity.

What is Rajasthan's solar potential?

Rajasthan's solar generation potential has been assessed at 142 GW. The State Government plans to systematically harness this potential and has set for itself an ambitious target of 30 GW capacity by 2024-25 which will transform the energyscape of the state and the country.

Why has Rajasthan decided to review existing solar & wind & hybrid policies?

1.12 To keep pace with the changing needs of the Renewable Energy Sector, State Government has decided to review the existing Rajasthan Solar, Wind & Hybrid Policies, 2019. 2. Vision and objectives: 2.1 To develop RE sector in the State with “Stakeholder-Driven” policy.

What is the wind power potential of Rajasthan state?

1.7. Moreover, National Institute of Wind Energy (NIWE), Government of India, has assessed wind power potential of 284GWat 150 Mtr height and National Institute of Solar Energy assessed the Solar Potential of 142 GW for Rajasthan State. 1.8.
