

# **Ranking of wind turbine generator plants**

## Overview

---

What are the top 5 wind turbine manufacturers in the world?

Showing 10 out of 45 companies. Vestas Wind Systems AS, Siemens Gamesa Renewable Energy SA, GE Renewable Energy, Enercon GmbH, Nordex SE, and Nordex SE are the top 5 wind turbine manufacturers in the world by capacity (as of March 31, 2022).

Who makes the most wind turbines in 2024?

Vestas Wind Systems A/S ( Vestas ) retains the top spot in 2024 as the largest manufacturer of wind turbines across the onshore and offshore wind markets. Vestas is currently the world's largest wind turbine manufacturer, with 181 GW of wind power installed worldwide, including 10 GW of offshore turbines.

Who is the world's largest wind turbine manufacturer & supplier in 2022?

According to the latest data from BloombergNEF (BNEF), Denmark-based wind turbine company Vestas remained the world's largest wind turbine manufacturer and supplier in 2022, thanks to its wide geographic diversification strategy and strong performance in the U.S. market.

Why is Siemens Gamesa a top 10 wind turbine manufacturer in 2022?

Siemens Gamesa, the latest merger between Siemens Wind Power and Gamesa, ranked second in the world's top 10 wind turbine manufacturers list in 2022, primarily due to its strong position in the offshore sector in India and improved position in the United States. Siemens Gamesa is currently the global leader in the offshore wind market.

What is the world's most powerful offshore wind turbine?

According to GE Renewable Energy, Haliade-X is the world's most powerful offshore wind turbine with an industry-leading capacity factor (63%), a 220-meter rotor, and a 107-meter blade.

How many wind turbines does GE have?

Harnessing onshore and offshore wind energy potential with a broad family of smart, modular turbines that are uniquely suited for a variety of wind environments, GE has installed more than 49,000 wind turbines and enough renewable energy sources to produce 400GW of energy worldwide.

## Ranking of wind turbine generator plants

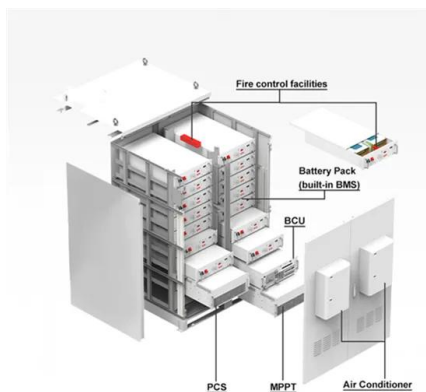

### Global Wind Turbine Supplier Ranking for 2020

Danish manufacturer Vestas held the title as the world's largest supplier of wind turbines in 2020 across onshore and offshore wind, thanks to the manufacturer's wide geographic diversification strategy, with new installations ...

### China leads global wind turbine manufacturers' market ...

China accounted for 65% of global wind capacity in 2023, which pushed four Chinese wind turbine original equipment manufacturers (OEM) into the top five global rankings, a first for the sector. With a record of 16.3 ...

### GENERATOR TYPES USED IN WIND TURBINES

o Generators used in wind turbines vary over time in parallel with technological . The LVRT implementation for wind plants depends on the type of generator being used.

### The latest ranking of China's wind power manufacturers has been

on January 27, at the 2024 China wind energy spring tea party, Qin Haiyan, secretary-general of the wind energy professional Committee of the China renewable energy society, said that the ...

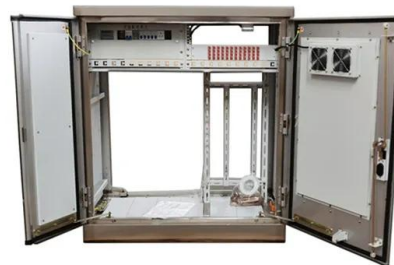

### Global Wind Turbine Supplier Ranking for 2020

GWEC Market Intelligence released the preliminary rankings for the world's top five wind turbine original equipment manufacturers (OEMs). Danish manufacturer Vestas held the title as the world's largest supplier of ...

### Global Wind Report 2024

From GWEC's Global Wind Report 2024. The report highlights increasing momentum on the growth of wind energy worldwide: Total installations of 117GW in 2023 represents a 50% year-on-year increase from 2022. 2023 was a year ...

### "Ranking the Top 26 Companies in Wind Turbine Software ...

"Ranking the Top 26 Companies in Wind Turbine Software Solutions" and operation management. They support the planning, operation, and maintenance of power plants, waste ...

## Wind turbine foundations now and in the future

Originally published in Wind Systems Magazine  
In 2000, the average land-based wind turbine had a hub height of 190 feet, a rotor diameter of 173 feet, and produced ...

## Wind turbine: what it is, parts and working , Enel Green Power

Read all about the wind turbine: what it is, the types, how it works, its main components, and much more information through our frequently asked questions. Windmills of the third ...

## Wind power by country

Share of electricity production from wind, 2023  
[1] Global map of wind speed at 100 m above surface level [2]. The worldwide total cumulative installed electricity generation capacity from ...

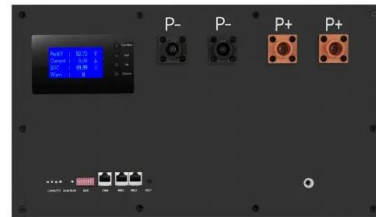

## Wind Power Plant: Diagram, Parts, Working & Advantages

Working of Wind Power Plant. The wind turbines or wind generators use the power of the wind which they turn into electricity. The speed of the wind turns the blades of a ...

## The Wild Wind Turbines Of Wyoming Are Coming For Your Fossil ...

"Wyoming ranks first for class 6 and class 7 wind sites, the highest site rankings for potential wind speed and power generation," the Energy Authority explains. In an ...

## GWEC releases Global Wind Turbine Supplier Ranking for 2020

GWEC Market Intelligence today released the preliminary rankings for the world's top five wind turbine original equipment manufacturers ("OEMs"). Danish supplier ...

## How a Wind Turbine Works

Wind power plants produce electricity by having an array of wind turbines in the same location. The placement of a wind power plant is impacted by factors such as wind conditions, the ...

## Characteristics of wind turbine generators for wind power plants

This paper presents a summary of the most important characteristics of wind turbine generators applied in modern wind power plants. Various wind turbine generator ...

### The top 10 countries with the most wind energy ...

The wind power market has grown at a CAGR of 14% between 2010 and 2021 to reach 830 GW by end of 2021. This has largely been possible due to favourable government policies that have provided incentives to the ...

### 2019 Top 10 Wind Turbine Manufacturers -- Wind Supplier ...

Top 10 Wind Turbine Manufacturers . 1.) Siemens (Includes Subsidiaries) Total Pipeline Capacity (MW): 103,620.605 Projects: 1,383. Siemens is a global leader in the wind ...

### List of most powerful wind turbines

This is a list of the most powerful wind turbines. The list includes wind turbines with a power rating that is within 5 MW of the current most powerful wind turbine that has received customer ...

### List of the 50 largest wind turbine manufacturers ...

This includes providing 1.67 GW of wind turbines to Neom and supplying 500 MW to AMEA Power in Egypt. 7) Windey Energy Technology Group Co.,Ltd. (Hangzhou, China) Windey is the oldest manufacturer of large ...

### **GWEC releases Global Wind Turbine Supplier Ranking ...**

Danish supplier Vestas held the title as the world's largest supplier of wind turbines in 2020, thanks to the Danish supplier's wide geographic diversification strategy, with new installations in 32 markets last year, and ...

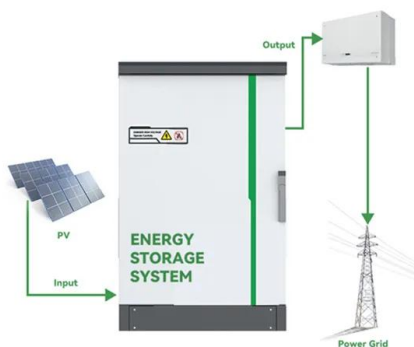

### **Top 10: Wind Power Companies , Energy Magazine**

Vestas Wind Systems AS, Siemens Gamesa Renewable Energy SA, GE Renewable Energy, Enercon GmbH, Nordex SE, and Nordex SE are the top 5 wind turbine manufacturers in the world by capacity (as of March 31, 2022). ...

### [Top 23 Global Wind Turbine Manufacturers](#)

As wind power continues to be one of the most commonly used renewable energy sources in the global market, these top 10 wind turbine suppliers are expected to further strengthen their market dominance by ...

### [WWEA Annual Report 2023: Record Year for ...](#)

In this year's World Wind Energy Association Annual Report, we proudly present unprecedented achievements in wind energy installations across our planet. 2023 has been a record-breaking year, with a total global capacity ...

## Wind power

Not including these effects, modern wind turbines kill about 0.273 birds per GWh in comparison with 0.200 by coal power plants. [124] The effects of wind turbines on birds can be mitigated with proper wildlife monitoring. [125] Many wind ...

## GlobalData: Vestas tops manufacturer ranking 2021 , windfair

Vestas Wind Systems A/S has emerged as the leading manufacturer for wind turbines with an impressive 16.6 gigawatts (GW) of installations, or 19% share, of global ...
