

Re grid

Overview

What is REGRID?

Regrid is the leading provider of land parcels & location context data for your maps, apps & spatial analysis. Welcome to the Regrid mapping platform! Sign in here or start exploring 158M parcels and our unique spatial data tools. [Forgot your password?](#)

[No account?](#)

[Sign up here!](#) Regrid.com is dedicated to putting America online parcel by parcel.

How does the REGRID property app work?

When you download and register in the app, you'll get access to it on your phone AND on the web. The Regrid Property App places Regrid's massive property data set (157+ million properties) right in your hand. Explore detailed property information including owner, mailing address, property value, normalized land use codes, and more.

Why should I use the REGRID mobile app?

The mobile app is perfect for helping you understand more about your surroundings - you can easily see property boundaries and look up property information across the country, and follow properties that are important to you. All the data you see in the app is Regrid's property data - [read more about our extensive, high-quality dataset here.](#)

Can I use land parcel data outside the REGRID property app?

Welcome to the first-ever 100% land parcel coverage map of the United States, with property boundaries and data for every county. If you want to use this data outside the Regrid Property App, we offer other options for using our parcel data as well. [Click on a state or use the search bar at the top to get started.](#)

How much does the REGRID app cost?

The Regrid App places the entire nation of land boundaries and property information into your hands, no matter where you are. Choose Starter to try both the mobile and web apps for free! \$0 - Yep, it's free. "The vision is simple: Everyone connecting with land through an easy app that works for you even when you're not pressing buttons."

How do I use the REGRID app?

On a smart device (tablet/phone), download the Regrid app. Sign in using the same email and password you use to sign into Regrid online. Select your survey, tap on a parcel and start gathering your data! This is your survey feed. When posts are added to the map, they will appear here in a timeline.
