

Reconditioned solar inverters

Overview

There are a variety of reasons why purchasing refurbished solar equipment may be the ideal choice. Some buyers may be attracted to lower pricing over the latest and greatest technology. Others seek specific replacement parts for older arrays. Still others may want to add onto existing arrays. The following are real-life.

When considering the purchase of refurbished solar panels and inverters, buyers should verify the products meet the client's energy efficiency expectations, have been thoroughly tested and are cost-effective. Further, buyers should take precautionary steps to.

Although it is impossible to eradicate risk, buyers can greatly reduce risk by knowing who they are purchasing from. Connecting to a reputable reseller is like starting a meaningful relationship.

Once the decision has been made to purchase refurbished solar equipment, buyers can take extra steps to verify a reseller's reputation. By doing so, buyers further reduce their risk of.

Should you buy refurbished solar panels and inverters?

When considering the purchase of refurbished solar panels and inverters, buyers should verify the products meet the client's energy efficiency expectations, have been thoroughly tested and are cost-effective.

Where can I buy used solar panels & inverters?

Some resellers, like You Love Solar, specialize in used solar panels and inverters for resale. Buyers include DIY homeowners and companies looking for hard-to-find replacement parts.

What are refurbished solar panels?

Refurbished solar panels are used solar panels that have been restored to an acceptable condition or standard by a refurbishing company or the manufacturer. Below, we've highlighted the main differences between used and refurbished solar panels to better aid you in making the right choice for

your home and budget.

How often should refurbished solar panels & inverters be refurbished?

Communication is key! All solar panels and inverters require some maintenance to ensure optimal performance (twice a year is sufficient for most systems). Make extra certain your refurbished equipment is getting that attention, as there is a risk of a shortened lifespan.

Can refurbished solar panels save money?

Between an increasing amount of tax credits and rebates, net metering, and solar loans, there are plenty of financial incentives for businesses and residential customers to go solar. Today we'll discuss a way customers can save a bundle of money on their solar project: by choosing refurbished solar panels and inverters instead of new equipment.

Do refurbished solar panels come with a warranty?

Refurbished: Some refurbished solar panels come with a refurbished warranty. These warranties have shorter coverage periods than new solar panels. Refurbished solar panel warranties range from three months to nine years. Some refurbished panels don't come with a warranty at all.
