

Redstone concentrated solar power project

Overview

This is the 100 MW Redstone Concentrated Solar Thermal Power (CSP) Project being built by SEPCOIII Electric Power Construction Corporation, a subsidiary of POWERCHINA. It is not only the first (Tower) CSP project in sub-Saharan Africa, but also one of the largest renewable energy investment projects in South Africa. What is Redstone concentrating solar thermal power (CSP)?

Collectively, these mirrors resemble a colossal sunflower, symbolically blossoming on the soil of the vibrant “Rainbow Nation.” This is the 100 MW Redstone Concentrated Solar Thermal Power (CSP) Project being built by SEPCOIII Electric Power Construction Corporation, a subsidiary of POWERCHINA.

What is Redstone CSP project?

This page provides information on Redstone CSP project, a concentrating solar power (CSP) project, with data organized by background, participants, and power plant configuration.

How does Redstone CSP work?

Redstone, the first Tower CSP plant in South Africa is completed. This image taken August 20, 2024 shows how the solar receiver atop the tower is activated by the reflected sunlight from the solar field of heliostats (mirrors) surrounding the power block seen here below the tower: IMAGE©Xinhua (by Zhang Yudong).

Where is Redstone power plant located?

Located in the Northern Cape Province of South Africa, the Redstone plant will be equipped with a 12-hour thermal storage system that will deliver clean and reliable electricity to nearly 200,000 households round the clock. Commencement of operations is scheduled for Q4 2023.

Where is the Redstone project located?

Located in the Northern Cape Province of South Africa, the Redstone project will be equipped with a 12-hour thermal storage system that will deliver clean and reliable electricity to nearly 200,000 households round the clock. Commencement of operations is scheduled for Q4 2023.

Will Redstone deliver a stable electricity supply in South Africa?

Redstone with 12 hours of full-load energy storage will be able to reliably deliver a stable electricity supply to more than 200,000 South African homes during peak demand periods, even well after the sun has set.

Redstone concentrated solar power project

Redstone Concentrated Solar Power Project in South ...

Construction is currently in progress at the Redstone Concentrated Solar Power Project, which is situated in the Humansrus Solar Park, in the Northern Cape, between Tsanstabane and Kgatelopele. 100 ...

SOUTH AFRICA: CDC invests \$50m in the Redstone solar project ...

CDC Group, the UK government's development finance institution, is investing \$50 million in the Redstone Concentrated Solar Power (CSP) project in South Africa. The plant will feed 100 MW into the grid of the state-owned utility Eskom.

ACWA Power secures R11,6 billion for the Redstone CSP project

Saudi renewable energy developer, ACWA Power, has announced a ZAR11.6 billion financial close for the 100 MW Redstone concentrated solar power (CSP) plant in South Africa. The ZAR11.6 billion total investment for the Redstone project makes it the largest renewable energy investment in South Africa to date.

South Africa's Redstone concentrated solar project achieves ...

Concentrated solar power project show viability of solar power as baseload energy Located 30kms east of Postmasburg, close to Kimberley in the Northern Cape Province the Redstone

project will be equipped with a 12-hour thermal storage system to deliver clean and reliable electricity to nearly 200,000 households round the clock.

South Africa's largest solar power plant begins ...

Construction of South Africa's largest renewable energy project to date - the Redstone concentrated solar power (CSP) plant - has commenced. The R11.6 billion solar farm will be built

South Africa's largest renewable energy project Redstone CSP ...

South African Redstone concentrated solar power (CSP) project has achieved its first debt drawdown on the largest renewable energy investment in South Africa to date. The African Development Bank acted as the Mandated Lead Arranger (MLA) and Coordinating Bank for the ZAR 11.6 bn total investment, with a commitment of ZAR 2.306 billion to the transaction.

(FOCAC) Feature: Chinese-built solar plant helps bring

This is the 100 MW Redstone Concentrated Solar Thermal Power (CSP) Project being built by SEPCOIII Electric Power Construction Corporation, a subsidiary of ...

114KWh ESS

South Africa's largest renewable energy project Redstone concentrated

South African Redstone concentrated solar power (CSP) project has achieved its first debt drawdown on the largest renewable energy investment in South Africa to date. The African Development Bank acted as the Mandated Lead Arranger (MLA) and Coordinating Bank for the ZAR 11.6 bn total investment, with a commitment of ZAR 2.306 billion to the transaction.

Redstone Concentrated Solar Thermal Power Project in South Africa

An aerial drone photo taken on Aug. 20, 2024 shows a view of the Redstone Concentrated Solar Thermal Power Project near Postmasburg in Northern Cape Province of South Africa. The project is one of

Redstone Concentrated Solar Power Project On Track In South ...

The Redstone Solar Plant is in the Humansrus Solar Park between Tsanstabane and Kgatelopele in the Northern Cape, with construction underway. On completion, which is expected around 2023, 100 megawatts (MW) of power will be added to the national grid. The plant will be operational by early 2024. The South Africa

Department of Energy (DOE) awarded

SA's largest renewable energy project Redstone CSP achieves financial

ACWA Power, the Saudi developer, investor and operator of power generation and water desalination plants has announced the commencement of construction on the 100MW Redstone project following achievement of financial close. At ZAR 11.6 billion (\$162.457
