

Residential ESS project financing options in Italy 2026

Overview

Is Bess a good investment in northern Italy?

While Northern Italy currently has the largest installed BESS capacity in the country, a build-out of RES in the South is increasing energy price volatility, creating a more compelling investment case for BESS in this region.

How much Bess capacity does Italy have in 2025?

As of March 2025, Italy has got 1GW of grid-scale BESS capacity online, placing the country in third place in Europe (shared with Ireland) in terms of installed capacity, behind Germany (1.6GW) and the UK (5.6GW). Another 1.75GW is under construction, projects totaling 230MW have obtained permits, and 1.2GW of new BESS capacity has been announced.

What is the business case for Bess in Italy?

Revenue Streams for BESS: The business case for BESS in Italy is underpinned by four main revenue streams: wholesale trading, the Ancillary Services Market (MSD), the Capacity Market (MC), and the new energy storage subsidy scheme (MACSE).

Will Italy's energy system evolve in 2040?

On 1 st October 2024, the Italian TSOs Terna and Snam jointly published a new document outlining the expected Italian energy system evolution to 2040.

Is Italy a good place to invest in backup power?

In the third part of our series on backup power in Europe, we examine the lucrative BESS investment landscape of Italy. In part 1 of our series on backup power in Europe, we named Italy as one of the most attractive European countries for BESS investments.

Will the merchant business case improve with changes in Italy's regulatory

landscape?

We do expect the merchant business case to improve with the changes in Italy's regulatory landscape under the Text of Electricity Dispatching Rules (TIDE). TIDE will lead to major changes in Italian electricity dispatch regulation, including an update of Italy's grid code.

Residential ESS project financing options in Italy 2026
