

Robinsun energy

Overview

What is a robinsun performance plugin?

Our Robinsun Performance plugin solar kit Flat is the ideal solution for maximum production, with a Valkbox3 mount with a 20° angle, resulting in the highest savings on your electricity bills. Use any flat surfaces or structure with a lot of sunshine to generate solar energy, like a flat roof, garden or pergola.

Are robinsun solar panels a good choice?

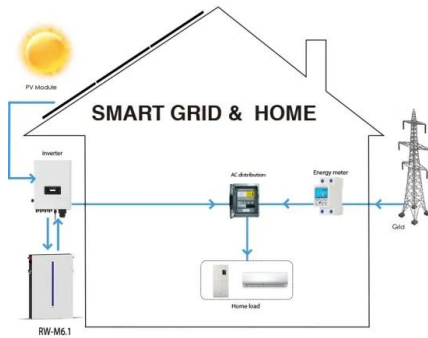

At Robinsun, our solar panels are very affordable with the best quality we can source on the market at any time. Over time, solar panels pay for themselves. With two Robinsun solar panels positioned at 20 degrees in Spain facing south, you are estimated to produce more than 1.600 kWh per year.

Do robinsun solar panels come with a warranty?

Robinsun solar panels come with a 30 years production warranty which is the longest time provided in the solar industry. Work with trusted, professional manufacturers who have a proven track record of delivering high-quality solar panels. Robinsun collaborates with leading manufacturers focusing on solar panels production.
