

Rooftop solar battery project financing options in Netherlands 2026

Overview

Will the Netherlands support battery storage in solar PV projects?

Netherlands recently announced €100 million in subsidies for the development and integration of battery storage in solar PV projects covering about 160-330 MW for 2025, in response to emerging challenges related to grid constraints and renewable integration in the country.

Does the Netherlands have a subsidy program for residential solar panels?

Our advisors are happy to calculate the return on your investment, rather than simply looking at the costs. The Netherlands currently doesn't have a state wide subsidy program for residential solar panels. The reason is, that the net metering system provides more than sufficient incentive to invest in a solar panel system.

How much money does the Netherlands spend on battery energy storage?

Netherlands' climate minister has allocated €100 million in subsidies to the deployment of battery energy storage system (BESS) technology.

Are solar panels tax deductible in the Netherlands?

The Netherlands currently doesn't have a state wide subsidy program for residential solar panels. The reason is, that the net metering system provides more than sufficient incentive to invest in a solar panel system. Also, the VAT on the initial investment is completely tax deductible.

How much solar power does the Netherlands have?

The country's cumulative solar capacity is said to have exceeded 20 GW this year. Lion Storage has announced its its flagship battery storage project 'Mufasa', with a nameplate capacity of 364 MW/ 1,457 MWh located in the Vlissingen port (North Sea Port), one of the upcoming energy hubs in the Netherlands.

Where can I find a subsidy for solar panels?

You can check the provinces' or municipalities' own websites. Zonnesfabriek is happy to help you find out what the local options for subsidy are. Installing solar panels is seen as an improvement to your home. If you take out a loan for this investment, then you can deduct the interest on the loan.
