

Sanjing Photovoltaic Grid-connected Inverter 70KW

Overview

What is a residential solar inverter?

SAJ's residential solar inverter range features single phase inverters from 3kW to 8kW and three phase inverters from 3kW up to 20kW in capacity. The most commonly used 5kW single phase inverter has a input range up to 7.5kW and a maximum efficiency of 98.1%.

How efficient are Saj solar inverters?

Residential inverter efficiency standards are generally 95 to 98 per cent. SAJ inverters meet these standards and have at least 97.8% max efficiency for their residential R5 range and extending up to 98.9% for the 60kW commercial solar inverter.

Which solar inverter is best for home use?

The R5 Series Rooftop Solar Inverter, won the TÜV Rheinland "All Quality Matters" Award for the PV Inverter for Home Use Category in 2019, although this has now been superseded by their R6 inverter series. SAJ's inverters come with access to their monitoring platform at no cost.

What is a 5kw single phase inverter?

The most commonly used 5kW single phase inverter has a input range up to 7.5kW and a maximum efficiency of 98.1%. The inverter cools itself with natural convection which avoids the need for a noisy fan and is has moisture ingress protection of IP65 making it suitable for indoor or covered installation locations.
