

# Should i invest in solar power

## Overview

---

While anything will have some impact, solar-powered electricity offers much lower greenhouse gas emissions than oil and coal, and it doesn't do the same damage to the land that you see with fracking. Finally, solar investing could lead to a degree of energy independence. Should you invest in solar energy?

Despite the potential benefits of investing in solar energy, there are some concerns to be aware of. Inconsistent sunlight – One of the challenges of solar energy is the fact that the sun doesn't shine all the time. The sun is only out during the day and even then, clouds can make solar energy a challenge.

Is solar energy a sustainable investment?

As more individuals, companies and governments become concerned about global climate change caused by carbon emissions, there's an increased interest in renewable energy as part of a socially responsible investing portfolio. One of the most often-cited types of alternative energy is solar power. 6 Places to Find Sustainable Investments.

Which solar energy stocks should you buy?

Three solar energy stocks that stand out as the most worthy of investors' consideration are: 1. First Solar (FSLR 0.28%) Manufactures thin-film solar panels. (BEP -0.95%) and (BEPC -0.52%) Operates solar energy generating facilities, wind farms, and hydroelectric power plants.

What is solar investing?

Solar investing encompasses investments in various aspects of the solar energy supply chain. Perhaps you invest in companies like First Solar (ticker: FSLR) that produce large-scale solar panels. It might even mean investing in a popular company like Tesla (TSLA) that hopes to create smaller solar products for homes.

Do you need a financial advisor to invest in solar power?

But, like any venture, investing in solar power requires a solid grasp of the industry, its various products and services and types of investments. A financial advisor can also help you assess investment opportunities throughout the solar industry. What Is the Solar Industry?

.

How do I invest in solar?
