- o Glass-filled nylon housing for durability
- o Operates on CTC772, CTC131, CTC131A and CTC123 chargers

Reconditioning the "Smart" Lithium-Ion Battery

The following process can be used to "recondition" any intelligent Lithium-Ion battery-pack including those used in the VERUS, VERDICT, VERUS Wireless and VERUS PRO. Depending how many "valid" recharge cycles the battery has gone through, it should be somewhere between 80% and 100% of its original capacity once reconditioned.
