

# **Sola power supply sdn5-24-100c**

## Overview

---

What are the features of the Solaha SDN-C DIN rail power supplies?

Features for the SolaHA SDN-C DIN Rail Power Supplies include Sag Immunity , Power Factor Correction , universal voltage input, and adjustable output voltage. With an operating temp from -25°C to 60°C and parallel operation capability, the new SDN-C units are suitable for a variety of industrial applications.

Can SDN-C power supplies be used with solahd redundancy modules?

For added reliability, the SDN-C power supplies can be used with the SolaHD Redundancy modules to provide redundant power supply operation. Extensive international hazardous location certifications, including Class I, Zone 2, ATEX, IECEx, ExEAC. Hazardous location temperature code (T-Code) rating of T4. IND. CONT. U 508, CSA C22.2 No. 107.1 EQ.

What is a solahd SDN-C?

SolaHD SDN-C Series — Compact DIN Rail Power Supplies: High performance specifications and extensive international certifications ensure that the SolaHD SDN-C is suitable for the most extreme environments, including hazardous locations and off-shore applications.

What is a 5A & 10A SDN-C DIN rail power supply?

5A and 10A models now available for SolaHD SDN-C Three Phase DIN Rail Power Supplies. combine high efficiency and compact size with new visual diagnostic LEDs. Features for the SolaHA SDN-C DIN Rail Power Supplies include Sag Immunity , Power Factor Correction , universal voltage input, and adjustable output voltage.

Which power supplies can be used with solahd redundancy modules?

Parallel operation, extensive LED diagnostics, and universal AC or DC input voltage simplify installation and maintenance. For added reliability, the SDN-C

power supplies can be used with the SolaHD Redundancy modules to provide redundant power supply operation.

What is a solahd power supply?

The SolaHD brand offers the broadest power quality line, including uninterruptible power supplies, power conditioners, voltage regulators, shielded transformers, surge protection devices and power supplies. This group is made up of the EasyHeat and Nelson brands.
