

Solar Photovoltaic Installation Quote

Overview

Usually, installing solar panels in the UK costs around £4,000 to £8,000 per unit of power (kW). So, if you go for a standard 4kW system, it might cost you about £16,000 to £32,000. How do I get a solar panel quote?

You'll then receive Solar Panel Quotes from local, award-winning and the most competitive solar panel installers in the UK. Exclusive finance and tender management for commercial-scale solar projects and solar farms. Fill out the 'Request Quote Comparison' form to the right of this page to receive your Quotes--it only takes 30 seconds;.

What do I need to know before installing solar panels?

The type of solar panels you install. The brand of the solar panels. The total number of solar panels you are installing. Please bear in mind that a complete solar panel installation does not simply include the costs of the solar panels themselves, but also includes the following: Solar panel brackets. Solar panel inverter. Solar panel brackets.

What is included in a complete solar panel installation?

Please bear in mind that a complete solar panel installation does not simply include the costs of the solar panels themselves, but also includes the following: Solar panel brackets. Solar panel inverter. Solar panel brackets. Installation i.e. labour costs of the installer. Cost of the solar battery storage system (although this is optional).

How much does a solar panel installation cost?

Generally, two installers will work together to install your solar panel system, and depending on its complexity, they can take up to 3 days to complete the installation. This means that you can expect to spend anywhere between £600 and £3,000 on labour costs alone.

How much does a solar panel cost per kilowatt?

Exactly how much a solar panel costs per kilowatt depends on the type of solar panel you're talking about. Monocrystalline solar panels are the most expensive, and their cost per kW is somewhere around £1,000 – £1,500 whereas polycrystalline solar panels cost about £900 per kW.

What is a solar panel cost calculator?

The solar panel cost calculator below will help you determine how much energy you can save, as well as the financial rewards you could potentially earn by installing a solar panel array on your property. Please bear in mind that the calculator will provide estimates based on the information you have provided.
