

Solar Photovoltaic Panel Warranty Service

Overview

Before committing to a manufacturer, you should read all of the fine print and review these details:
Solar panel performance warranty: Usually 25 years
Solar panel product warranty: Typically 5 or 10 years
Inverter warranty: Usually 5 years
Installation warranty: Typically 1 or 2 years, but up to 10 years in some cases
What is a solar panel warranty?

Solar panel warranties vary by manufacturer and type of panel. A standard solar panel warranty should come with at least 10 years of protection. Solar panel warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment.

Does a solar panel warranty cover labor costs?

Solar panel warranties typically won't reimburse for labor costs associated with installing new equipment or shipping fees for new equipment. Comparisons should focus on product warranty terms, power guarantees, labor warranty terms, transferability and bankability, and the availability of an extended warranty.

Which solar panel has the best warranty?

Comparisons should focus on product warranty terms, power guarantees, labor warranty terms, transferability and bankability, and the availability of an extended warranty. Based on our ranking system, Panasonic has the strongest overall warranty, with REC and Qcells close behind. Why are solar panel warranties important?

.

How long do solar panels last?

Workmanship and materials warranty of one or two years. Batteries (non-grid systems / hybrids) roughly 5-15 years. Inverter (s) warranty of between 5-10 years. There are many factors that must be borne in mind when considering warranties for you solar panel system.

What factors determine a solar panel warranty?

The warranty factors include: The number of years the warranty covers the integrity of the equipment. We assessed and scored every company across each weighted factor and then added the individual factor scores to determine the company's overall score. The higher the score, the better the warranty. What is a solar panel product warranty?

.

How long does a power supply warranty last?

Manufacturers offer warranties of varying lengths. On average these consist of: 10-year limited product warranty (materials and labour). 25-year limited power warranty (typically 10 years at 90% power output and 25 years at 80% power output). Workmanship and materials warranty of one or two years.
