

Solar Power Sydney

Overview

Although it may not be as sunny as Brisbane or Darwin, Sydney still receives plenty of sun hours and significantly more than Hobart or Melbourne. With NREL's PVWatts calculator, we can see that for each kilowatt (kW) of solar panels installed, you can generate an average of 3.96 kWh of electricity per day. This factors in a.

The short answer is that there is a great return on investment for Sydney homes. You have the ability to save up to \$2,707 per year on your energy bill with a typical payback period between 4 and 5 years. The table below shows.

Thanks in part to the federal incentives explained above, Australia is home to some of the lowest solar PV system prices in the world - which is one of the reasons that so many homes and.
