

# Solar awning system

## Overview

---

Solar panel awnings can serve a dual purpose, they can help with providing shade to the side of your house that is too hot to use as an outdoor space around your house, often, especially here in Texas the sun beams at a side of your house during the day and makes that space unusable for outdoor activities, it also.

Solartime USA has built some great looking solar canopies where the structure itself is made of great looking and sturdy wood posts with solar panels as roof, providing shade but still letting light through. Solar canopies can be placed anywhere you have room.

Since more people are purchasing electric powered cars, some may already have a solar system installed and decide to build a solar carport as a.
