

Solar companies in charleston

Overview

Determining the number of panels, or how big your solar system needs to be, is the next step in outfitting your home for solar energy. Consulting directly with the installation company will help you figure out exactly how many solar panels you need. But before your consultation, be sure to have this information on.

Solar companies offer different warranties on their products and services, but you can find some common themes among the most prominent companies. For example, most solar companies and.

In addition to picking the solar installation company that's best for you, you'll also need to do some research to help determine which type of solar panels will work best for your home.

Knowing the median household size in Charleston, which is 2,260 square feet, and the average amount of energy each home uses in South Carolina—1,078 kWh per household—can help.
