

Solar companies in seattle

Overview

An important part of solar installation is determining what size system, or how many solar panels, will work best for your home. To best determine how many solar panels you'll need, be ready to give companies the following information:

1. How much available space is on your roof
2. The amount of energy your.

Solar companies offer different warranties on their products and services, but you can find some common themes among the most prominent companies. For example, most solar companies and.

Based on the size of the median Seattle household, which is 2,041 square feet, and the average energy usage per household in Washington, which is 984 kWh per household you can.

Choosing a solar installation company also means researching and deciding on the type of solar panels you want to install. There are three main types of solar panels available for residential.
