

Solar energy fort collins

Overview

Does Fort Collins have solar?

Fort Collins Utilities offers resources to customers interested in generating their own renewable energy and for people who have solar installed. More than 3,000 residential customers have solar PV systems in Fort Collins, which provide more than 15 megawatts of generating capacity.

Where can I get a solar lease in Fort Collins?

SunPower and other similar leases are offered by a number of local solar companies in Fort Collins and my pick of these are: Freedom Solar is a full-service solar company installing solar panels and backup power systems for homeowners and businesses since 2007.

How do I find a reputable solar installer in Fort Collins?

Make sure your solar installer provides a consultative, professional solar experience, and if you're also purchasing a solar battery system, they have proven experience with those products too. By doing the legwork for you, EnergySage makes it easy to find reputable solar installation companies in Fort Collins, CO.

How much does a solar panel cost in Fort Collins CO?

As of February 2024, the average solar panel cost in Fort Collins, CO is \$3.16/W. Given a solar panel system size of 5 kilowatts (kW), an average solar installation in Fort Collins, CO ranges in cost from \$13,433 to \$18,173, with the average gross price for solar in Fort Collins, CO coming in at \$15,803.

Does Fort Collins utilities offer a solar rebate program?

Fort Collins Utilities supports customers generating their own renewable energy using solar photovoltaic (PV) panels. The Solar Rebate Program provides incentives and guidance to help make sure each project is a success.

Should you get a solar loan in Fort Collins?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use incentives (tax credits etc) available in Fort Collins, rather than a leasing company retaining them.
