

Solar energy rebates

Solar energy rebates

Small-scale Renewable Energy Scheme , Clean Energy Regulator

The Small-scale Renewable Energy Scheme is an Australian Government initiative that encourages investment in small-scale renewable energy. It provides incentives to households and businesses to install small-scale renewable energy systems like rooftop solar, solar water heaters and air sourced heat pumps.

Solar Panel Rebates

Solar energy has become the primary renewable energy source for homeowners and businesses. This cleaner, cost-effective power source is generated via solar panels installed on the property. The process sounds simple, but solar installation is a long-term investment.

Home Energy Rebates

Home energy rebates are available to Michigan residents to help make their homes, and our state, cleaner, efficient, reliable, and more affordable. The Inflation Reduction Act (IRA) authorized the U.S. Department of Energy (DOE) to carry out the Home Energy Rebates programs to help households save money on energy bills, improve energy efficiency, and reduce indoor and ...
