

Solar panel rental companies

Overview

Can you rent a solar power system?

Rent a solar power system over a fixed 7-year term. Metrowatt retains ownership of the equipment while taking care of all maintenance and support for the full contract term. Metrowatt's rental solar power solutions allow everyone the opportunity to get worry-free backup power and energy savings.

What is a solar lease?

Solar leases are very similar to power purchase agreements (PPAs). With both options, a solar developer installs and owns the solar panels on your roof. The two differ in how you pay for the solar energy. Solar lease payments are the same every month, whereas solar PPA payments are based on the amount of energy the panels actually produce.

How do Solar Lease companies make money?

All the solar lease providers listed make their money by financing a solar system for your home and then selling you the solar electricity from the panels. In most cases, the companies promise you will save money on your power bills in the first year – a win-win situation.

What are the top 4 solar panel/inverter brands?

Top 4 solar panel/inverter brands include: LONGi, Jinko, JASolar, Trinasolar, Sungrow, Huawei, Fronius, SMA (Source: 2020 PV InfoLink/ BloombergNEF) ; In addition, SolarHK also provides LG, Panasonic, SolarEdge and other brands. village house/residential/villa/platform.

Does a solar development company get a rebate?

The solar development company owns the solar panels, not the homeowner, so the company gets all rebates and incentives. Homeowners do get to take advantage of net metering, so the solar panels still lower or eliminate their

electric bill.

How does a solar installer work?

Typically, a solar installer will work with a separate leasing company to offer a solar lease. The installer is responsible for designing, installing, and maintaining the solar panels. Solar leases are very similar to power purchase agreements (PPAs). With both options, a solar developer installs and owns the solar panels on your roof.
