

Solar paneled phone case

Overview

What is a solar powered phone case?

Using the same technology that is used in normal solar panels, a solar powered phone case is basically a mini solar panel that is integrated to your phone case. Photovoltaic solar panels convert light energy into electrical energy, so that you can charge your phone with the solar powered case.

What is the best solar powered cell phone case?

Amazon's Choice for a solar powered cell phone case is the MINRISE Portable Charger 30000mAh, Power Bank Solar Charger with 2 USB Outputs and USB-C (Input Only). It is an external battery pack for outdoor activities and is compatible with cellphones.

What are the best solar phone charger cases?

To help you make an informed decision, we've reviewed some of the best solar phone charger cases on the market: Blavor Qi Portable Solar Power Charger and 10,000mAh External Battery Pack, Kepswin Store 20000mAh Solar Power Bank, AMAES 24000mAh Portable Solar Power Bank, and ERRBBIC 20000mAh Waterproof Battery Backup Solar Panel Charger.

Should I buy a solar power phone case?

The solar power phone case is of course more useful in places where people have a fair amount of sunshine, however even if you are not outside during your day they can still be useful.

Can you put a solar panel on a phone case?

Kudos to the scientist who came up with this marvelous idea of putting a solar panel on the phone case. The concept is unique and relatively new and recently manufacturers have started to see the immense potential in it.

How long does a solar case take to charge?

Wait 30-60 minutes for a quick solar recharge to power 1-2 hours of use. The case can be separated from your phone for remote charging nearby. Transfer solar energy from your case battery to your phone whenever you like. 98% of the energy collected will be transferred to the case's battery. A pioneering father with four daughters.
