

# **Solar power generation 0 down payment installation**

## Overview

---

When will solar panels pay back to the grid?

New rules introduced this week will give homes and businesses that install solar panels payments for exporting electricity back to the grid from 1 January 2020.

Will new solar homes get a payment from suppliers?

New solar homes and businesses creating and exporting electricity to the grid will be guaranteed a payment from suppliers under new laws to be introduced by the government this week (Monday 10 June).

What if I have solar panels installed before 31 March 2019?

If you had solar panels installed before 31 March 2019, it's likely you'll be on a feed-in tariff (FIT). If so, you might already be getting paid more than what's below, but if you're currently on a variable SEG tariff, you're free to switch to another provider that'll pay you more.

How do I find the cost of solar panels installation?

Find the cost of solar panels installation with E.ON Next and the various easy payment options.

Should you apply for a solar panel grant?

By applying for a solar panel grant, you could receive heavily discounted or even free solar panels, resulting in annual energy bill savings upwards of £1,040. We recently conducted a survey of over 1,540 Independent readers who own solar panels\* to understand how they made the most of the solar panel funding available to them.

Can solar panels be installed without a planning system?

Changes to permitted development rights rules will mean more homeowners

and businesses will be able to install solar panels on their roofs without going through the planning system. Currently those who have to go through the planning system are having to wait over eight weeks and face extra costs.
