## Overview

---

How many solar panels are there in Lincoln Nebraska?

The LES community solar facility was the first utility-scale solar installation in Nebraska and is still one of the largest solar arrays in the region. Located at Northwest 75th and West Holdrege streets, it generates 5 megawatts DC of solar energy and uses 15,333 solar panels. That produces enough energy to power 900 typical homes in Lincoln.

Are there any good local solar companies in Lincoln?

There are many good local solar companies in Lincoln, but finding the right one can still be tricky. To help, I've outlined the best solar companies in Lincoln by their services, so you can get exactly what you need from your solar company.

Where can I get a solar lease in Lincoln?

SunPower and other similar leases are offered by a number of local solar companies in Lincoln and my pick of these are: SunPower believes clean energy and solar storage should be accessible to everybody.

How do I choose a Lincoln solar company?

When researching Lincoln solar companies, find those with at least 3.5 out of 5 stars on sites like Google Reviews and similar platforms, as well as a good reputation on Better Business Bureau (BBB). You should read through past customer reviews to get insight into other homeowners' experiences with the company.

How do I know if a Nebraska solar company is a good company?

Below are some the criteria we examined specifically for Nebraska solar companies Brand reputation and certifications (20%): We take each company's Better Business Bureau (BBB) score into consideration, as well as how long the installer has been in business (at least 5 years is required, 10

preferred) and what type of solar certifications it holds.

How much does it cost to install solar panels in Lincoln?

Be ready to pay extra if you choose any extras like animal guards, batteries or solar trackers. Per statistics from NASA, the EIA and the Bureau of Labor Statistics (BLS) the average expense to install solar panels in Lincoln is \$23,442.
