If you have any feedback about this notice email: [customerexperience.indirecttaxes@hmrc.gov.uk](mailto:customerexperience.indirecttaxes@hmrc.gov.uk). You'll need to include the.

If you're unhappy with HMRC's service, contact the person or office you've been dealing with and they'll try to put things right. If you are still unhappy, find out how to complain to HMRC

What is the liability for solar panels?

If solar panels are only supplied then the liability will be 20% but if they are supplied and installed then the liability would be zero rated for both the goods and the installation of the goods. Please see the guidance below: Energy-saving materials and heating equipment (VAT Notice 708/6) . Thank you.

How do you assess a solar racking system?

Steps for Conducting a Thorough Site Assessment Topographical Analysis: Assess the terrain's slope, elevation, and stability to determine the most suitable locations for the solar racking system. This step ensures that the system is both structurally sound and positioned for optimal sun exposure.

Is the VAT rate down to zero for solar products?

The government announced cutting VAT from five percent to zero upon installing energy-efficient systems such as solar panels, heating pumps from April 2022. I wonder if the vat rate is down to zero for solar products as well?

many thanks. Hi. The Zero rating for energy saving materials involves the supply/installation of energy saving goods.

What is a ground mount solar racking system?

Introducing Ground Mount Solar Racking Systems Ground mount solar racking systems are a fundamental component of this sustainable solar infrastructure. Unlike rooftop installations, ground mount systems provide the flexibility to optimize solar panel orientation and placement, maximizing energy production.

How do you attach solar panels to a racking frame?

**Panel Mounting Attaching Solar Panels:** Carefully place the solar panels onto the racking frame. Use clamps or bolts to secure each panel in place, ensuring they are tightly fastened to withstand wind and weather conditions.

What is a zero rating for energy saving materials?

Hi. The Zero rating for energy saving materials involves the supply/installation of energy saving goods. If solar panels are only supplied then the liability will be 20% but if they are supplied and installed then the liability would be zero rated for both the goods and the installation of the goods.
