

Solar street light U-shaped bracket size

Overview

What types of brackets are available for a flood / street light?

Column spigot adaptors & reducers, Amenity post top brackets, Flood light brackets, Highway brackets & Outreach Arms, plus bespoke designs available. We manufacture a wide range of galvanised lighting brackets to ensure your Flood / Street or Amenity light is securely attached to the street lighting column / wall.

How do I choose the right lighting bracket?

In order to correctly specify / purchase the correct lighting bracket you will need to know the column diameter / column spigot size and maximum head load of the column. A selection of our most popular lighting brackets are listed below. However, please contact our sales team for further information and technical support. You may also like.

What are the different types of lighting brackets?

Lighting Brackets - Column spigot adaptors & reducers, Amenity post top brackets, Flood lighting brackets, Highway brackets & Outreach Arms.

Which bracket fits 76mm column?

Galvanised Adjustable Right Angled Single Arm Bracket fits 76mm Column, fits 60mm Luminaire 100mm projection at 90deg.

Can a lighting bracket be painted?

We also offer a full painting service where your lighting bracket can be painted to a RAL colour and gloss level to match your street lighting column. As well as stocking a full range of lighting brackets, we also offer a bespoke bracket design service by our in-house engineers.

Are lighting brackets galvanised?

All lighting brackets are hot dip galvanised and come complete with all the necessary bolts and grub screws for mounting. We also offer a full painting service where your lighting bracket can be painted to a RAL colour and gloss level to match your street lighting column.
