What are Solar System coloring pages?

Solar System Coloring Pages are a great way for parents and teachers to help kids learn about the planets, moons and other objects in space. Our solar system is comprised of the sun, its planetary system of eight planets and various non-stellar objects. Use a mnemonic to remember the names of the planets. Teach the colors of each planet.

How many planets are in the Solar System?

Our next solar system coloring page shows all the eight planets and their placement according to the Sun. You can use this sheet to show your little one which planets are the closest to the Sun and which are the farthest. Print this free coloring sheet for your child and invite them to color each planet as realistically as possible.

How do you make a solar system printable?

If you chose the version of the printable that is outlines, use some markers or crayons to color the sun and planets for your solar system craft. Then cut out all of the pieces and fold each of the planets on the dotted line. Because the sun is larger than all of the planets, it takes up 2 pages.

How do I download a planet coloring sheet?
