

Southern Power Supply Network WeChat Transfer

Overview

Who is Scottish and Southern Electricity Networks?

Scottish and Southern Electricity Networks provides distribution services in South Scotland, England and Wales as an IDNO. In the event of a power outage, it is the responsibility of Scottish and Southern Electricity Networks to repair the fault and get power back on for affected areas.

Who is Southern Electric?

Southern Electric, founded as Southern Electricity Board in 1948, was created to distribute electricity in Southern England.

Is Scottish & Southern Electricity Networks a FTSE 100 company?

The company forms part of the SSE plc group, which is listed on the London Stock Exchange and is a constituent of the FTSE 100 Index. Scottish and Southern Electricity Networks manages two distribution networks and one transmission network. The company manages two of the fourteen distribution licenses in Great Britain.

Could a multi-billion pound subsea cable shift energy between Scotland and England?

A multi-billion pound subsea cable that can shift vast amounts of renewable electricity between Scotland and England has been given the go-ahead by regulators. SSEN Transmission says the energy transfer project is needed to move energy around the grid on days when the wind doesn't blow or demand is high.

What is Scottish and Southern Energy?

In 1998, Scottish and Southern Energy was formed following a merger between Scottish Hydroelectric and Southern Electric. This part of the SSE plc group is now referred to as Scottish and Southern Electricity Networks.

What is ssen transmission's energy transfer project?

SSEN Transmission says the energy transfer project is needed to move energy around the grid on days when the wind doesn't blow or demand is high. The two 315-mile (507km) cables will run from Peterhead in Aberdeenshire to Drax in North Yorkshire and will initially work alongside a similar link down the west coast.
