

# Streamlight 3v lithium batteries

## Overview

---

What type of battery does Streamlight use?

Streamlight 3V Lithium Flashlight Batteries can be used in flashlights, film and digital cameras and any other device that uses the following battery models: 123A, CR123A, CR123, CR17345, K123A, VL123A, DL123A, 5018LC, EL123AP, SF123, SF123A 3V Lithium Battery.

Are Streamlight CR123A batteries good?

Streamlight CR123A lithium batteries are an excellent replacement for any standard 3-volt lithium battery. Compatibility: Streamlight's battery of choice for all compatible Streamlight flashlights. Perfect for use with compatible Streamlight flashlights, film, and digital cameras. Not recommended for use with smoke detectors.

Does Streamlight have a warranty against battery leakage?

While Streamlight does not warrant against battery leakage in its alkaline battery products, the Battery Manufacturers often accept responsibility for damage to products caused by their branded leaking batteries. We suggest that before returning any alkaline lights to Streamlight for repair, you first try to determine if battery leakage is present.

What is the best 3V Lithium battery?

Made of the highest quality materials. The 3V CR123 Streamlight lithium battery is the best as a replacement for any standard 3-volt (123 CR123 123A) lithium battery. These Streamlight lithium batteries are extremely popular for flashlight and digital camera use and will work just fine for any device that needs a standard 3V lithium battery.

Which battery should I use for my Streamlight TLR3 & TRL4 series?

For TLR-3 and TLR-4 series, Streamlight recommends the use of Panasonic, Sanyo, Duracell or Energizer size CR2. Use of other batteries or mixing of used

and new or different brand batteries may present a risk of leakage, fire, explosion and serious personal injury.

What batteries do Streamlight X series flashlights use?

With innovative mounts, charging systems and light delivery, we make it easier for you to get the job done. Streamlight X Series flashlights, also known as Dual Fuel Flashlights, can use either CR123A disposable batteries or SL-B26 rechargeable batteries. This is due to special circuitry in Streamlight X Series flashlights.
