

Successful bid price of enterprise ESS system project in Bangladesh 2030

Overview

How has E-GP changed the public procurement system in Bangladesh?

In addition, the number of registered bidders in e-GP increased to 103,250, demonstrating wider market access compared to manual bidding. About 80 percent of Bangladesh's public procurement expenditure was processed through the e-GP system in year 2022, compared to only 2 percent in 2017.

How technology-driven public procurement reform has impacted Bangladesh's GDP?

The technology-driven public procurement reform has covered the entire procurement process and has been an exemplary case of the use of disruptive technology in the field of procurement. It is estimated that the introduction of e-procurement increased Bangladesh's GDP by \$1.4 to 1.6 billion per year. Beneficiaries.

Does e-procurement increase Bangladesh's GDP?

It is estimated that the introduction of e-procurement increased Bangladesh's GDP by \$1.4 to 1.6 billion per year. Beneficiaries "Before the e-GP was introduced, we had to submit tenders manually. We had to carry a huge amount of paperwork to Motijheel. It was a big hassle.

Does E-GP save money in Bangladesh?

About 80 percent of Bangladesh's public procurement expenditure was processed through the e-GP system in year 2022, compared to only 2 percent in 2017. Use of e-GP has led to about 7 percent savings in procurement costs compared to manual paper-based procurement. In 2023, estimated savings to the government budget reached \$1.4 billion.

How did citizen group orientation influence the contract monitoring process in Bangladesh?

The process in Bangladesh required not only technical but also substantial

political commitment and behavioral interventions. Learning from the citizen group orientation influenced citizens to participate in the contract monitoring process. Photo Credit: Central Procurement Technical Unit (CPTU), IMED, Ministry of Planning , Bangladesh Approach
